

# SAFEGUARDING YOUR EVENT

## BY INCLUDING YOUR VIRTUAL AUDIENCE

Let the QEI Centre support you through these unprecedented times by providing a hybrid solution for your meetings and events that puts your health and safety and that of your delegates at the heart of the event.

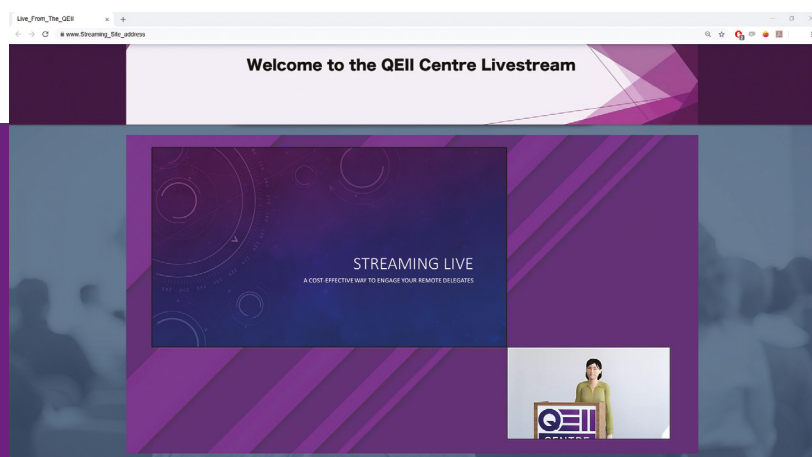

Physical distancing may reduce your onsite participation, but you can still bring the event experience to your audience online.

Upgrade your package to enable your audience to ask questions and interact with speakers as though they were there in person.

Use the innovative and high-quality technology and production facilities provided by the QEI Centre to stream to all corners of the globe and boost your numbers. In the hands of our experienced in-house technicians everything you need is under one roof.

**WebStreamLive will provide three levels of live web streaming. Starting with the Lite package, which includes:**

- Camera
- Data & video capture 720p streaming services
- Bandwidth
- 1 x Picture-in-Picture (PiP) layout

Example PiP layout; concurrent slides & camera

**Upgrade to Intermediate or Advanced and you can benefit from:**

- Extra cameras
- More layouts
- 1080p streaming
- Larger online audience
- Managed service
